City or Town

District of Columbia 20005

hereby make(s) application for permission to change the

State and ZIP Code

☐ Point of diversion☒ Place of use☒ Manner of use☐ of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

Claim No. 2 of the Walker River Decree, granted and adjudicated to defendant, Emillio Aiazzi, successor to Henry Wood, said Decree entered by the District Court of the United States in and for the District of Nevada in that certain action entitled "The United States of America, Plaintiff, vs Walker River Irrigation District, et. al., Defendants, in Equity Docket C-125"

1. The source of water is **Walker River and its Tributaries**

Name of stream, lake, underground, spring or other sources.

2. The amount of water to be changed **5.71 cubic feet per second (See Attachment "A," Item 2)**

Second feet, acre-feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for **Wildlife Purposes in accordance with NRS Chapter 533**

Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use

4. The water heretofore used for **Purposes as Decreed**

If for stock, state number and kind of animals.

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)

Water administered for non-diversion within the SE1/4 NW1/4 Section 2, T.13N., R.25E., M.D.M., or at a point from which the West 1/4 corner of said Section 2 bears South 83°43' West, a distance of 1,708.6 feet (Weir Diversion Structure). Refer to map filed in support of Application No. 80700.

6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)

The point of diversion, referred to hereinafter as the point of non-diversion, will not be changed.

*Mason Valley
9-108
Ly*

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

Water under this application will remain within the Walker River from the Weir Diversion Structure, through USGS Wabuska Gauge, then through Weber Reservoir into and including Walker Lake. Refer to map filed in support of Application No. 80700. Refer to Attachment "A," Item 7 for proposed place of use.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

Refer to Attachment "A," Item 8 for existing place of use. Refer to map filed in support of this application.

9. Proposed use will be from As Decreed to As Decreed of each year.
Month and Day Month and Day

10. Existing use permitted from As Decreed to As Decreed of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

No additional works proposed.

12. Estimated cost of works None - No additional works proposed.

13. Estimated time required to construct works None - No additional works proposed.

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use Ten (10) Yrs to serve all priorities

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Refer to Attachment "A," Item No. 15 for additional information.

16. Miscellaneous remarks:

FILE ENROLLING OFFICE

Applicant: National Fish and Wildlife Foundation

Item No. 15 - Detailed description of project:

Applicant seeks administration of the changed water right at the point of non-diversion subject to the continuing jurisdiction and regulation by the Nevada State Engineer, the United States Board of Water Commissioners, and the Walker Decree Court as follows:

1. The full decreed flow rate whenever such rights are fully in priority (see Table 1);

Table 1: Full Decreed Flow Rate (in CFS) by Priority (administered at Point of Diversion)

Claim	Priority	Acres	C.F.S.	Walker River Decree C-125 Claim No. 2, granted and adjudicated to Emillio Aiazzi, Successor to Henry Wood
2	1874	48	0.570	
2	1879	412	4.940	
2	1885	17	0.200	
Total		477.00	5.710	

2. The consumptive use portion (determined to be 3.10 acre-feet per acre as set forth in the Evapotranspiration and Net Irrigation Water Requirements for Nevada (NIWR) for the net irrigation water requirement for alfalfa in Mason Valley) to be protected from diversion by others from the point non-diversion through USGS Wabuska Gauge, then through Weber Reservoir into and including Walker Lake (see Table 2); and

Table 2: Consumptive Use Flow Rate (in CFS) by Priority (administered at the Wabuska Gage)

Claim	Priority	Acres	Consumptive Use Portion	
			Duty in AF @ 3.1 AFA	C.F.S.
2	1874	48	148.800	0.306
2	1879	412	1277.200	2.628
2	1885	17	52.700	0.108
Total		477.00	1478.700	3.042

APPROVED
2014 APR 23 11:10:00
STATE ENGINEER'S OFFICE

Applicant: National Fish and Wildlife Foundation

Item No. 15 - Detailed description of project (continued):

3. The non-consumptive portion at the Chief Deputy Water Commissioner's discretion including to avoid conflict with and injury to other existing water rights and to mitigate hydrologic system losses at and downstream of the point of non diversion upstream of the USGS Wabuska Gage.

Applicant proposes to manage the conveyance of water from the USGS Wabuska Gauge to Walker Lake consistent with the Lower Walker River Conveyance Protocols agreed to by the Walker River Paiute Tribe, U.S. Bureau of Indian Affairs and National Fish and Wildlife Foundation and the findings of NSE Ruling 6271 related thereto.

Applicant further proposes to ensure payment of operation and maintenance charges, including ditch charges, that are properly assessed and come due as if the water rights were still appurtenant to the agricultural lands from which they are changed.
